DETAILED ACTION

Response to Amendment

This Office action has been issued in response to After-Final Amendment submitted 9 July 2004. Claims 1-34 are pending. Previous examiner has been given full faith and credit with respect to his search, as per MPEP. Applicants' instant arguments are, however, persuasive.

Allowable Subject Matter

Claims 1-34 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to independent claims 1, 22, and 28, applicants' argument is persuasive at page 4 into page 5 (applicant did not number the lines in applicants' remarks, as recommended in MPEP), which discusses that, "Unlike conventional predictors which distinguish among blocks or instructions to keep separate histories for blocks in the system, the prediction mechanism of the present invention merges together multiple sets of readers for multiple blocks served by the directory. This information is referred to herein as the global history of the directory." Accordingly, it is this definition of "global history" that renders the instant claims allowable over the cited prior art of record. Claims 2-21, 23-27, and 29-34 depend upon the instant claims and are allowable for at least the reasons set forth supra with respect to same.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
